Weare High	1	9 - 12
Total	80	

THE GENERAL REPORT

The annual report should perhaps give us some kind of a picture of the kind of education being provided for our youth from the first grade on, but when town meeting day comes around we get all "steamed up" over some little item on the warrant so our over-all problems wait yet another year for discussion. Probably the most distressing feature of present day reaction to educational matters is the extreme inertia of the layman. This inertia results in a lack of information which promotes a lack of understanding and a lack of sympathy towards the whole problem of education. Most distressing is the vehemance and the ignorance with which views about education are expressed publicly and privately by many prominent people.

The basis of American democracy is that ALL people have value. Each individual has potential abilities, and given a chance, can make a unique contribution to the good of all.

Even from a narrow, selfish point of view, we cannot afford to have an ignorant and suppressed segment in our society. Whether we like it or not, these people are with us. Each individual becomes a producer and a consumer, hence an asset to our economic life, or he fails to produce and becomes a liability. Such persons become expensive liabilities if they have to be institutionalized, when for evidence we consider that America's annual crime bill exclusive of poverty is TWELVE billions annually while her total bill for education is nearer TWO billions annually.

In the East Deering school, Miss Milliken, is striving to promote the cause of worthwhile citizenship in the heart of every pupil.

Excellent judgment on the part of the school board has resulted in the seventh and eighth graders being transported to Hillsboro. This is of direct benefit to every person concerned. Particularly the smaller children who have a more homogeneous grouping in the Deering school. Similarly commendable is the decision to retain Miss Milliken, at a favorable salary. Continued association of a good teacher with her pupils is extremely important, whenever possible, in the learning process.

Hillsboro high school continues to provide a worthwhile and expanding educational program for our older pupils. As citizens, it is our solemn duty to make sure that every boy and girl gets a full education. It is perhaps quite easy at times to let the pupil stay home for some reason or other which later contributes to his losing interest in the better goal in life.

Please pay particular attention to the accompanying reports. They serve to inform us of educational progress in our community.

My greatest joy comes from the patient cooperation among parents, teacher, and school board in the community program.

Respectfully submitted,

STEWART V. McCORMACK,
Superintendent of Schools.
